

Pro Audio Technology (PRO) Backgrounder

Through a thoughtful combination of consumer and professional engineering technologies, Pro Audio Technology (PRO) designs and manufactures a complete range of loudspeakers and DSP amplified loudspeaker controllers that address the needs of high-end residential installations. PRO products unite lively dynamics, high maximum output level, and refined acoustic performance – satisfying even the most discerning music and home theater enthusiasts around the globe. All PRO products are designed, engineered and manufactured in the USA.

Theory Audio Design Backgrounder

Sister company to the esteemed audio manufacturer, Pro Audio Technology (PRO), Theory Audio Design marries PRO's startling acoustic performance with sophisticated contemporary design to bring large-scale sound to residential and commercial installations where aesthetics and compact size are paramount. Theory offers visually-attractive in-wall, on-wall, in-ceiling and soundbar loudspeakers, high-output subwoofers and amplified and unamplified DSP loudspeaker controllers.
