### **Scott Beck, CTO, abode Systems**

Scott Beck is the Chief Technology Officer of abode Systems with over 20 years of experience working in high growth startups. Before being appointed CTO of abode Systems, Scott served as the CTO and Co-founder of Zunos, a company that he successfully grew to 25 team members before selling to ASX:BTH in 2018.

Scott earned his degree in computer science from the University of Tasmania, Australia, and as a technology executive he is passionate for building products that deliver value, and the teams that build them. Within his role as CTO at abode, he works closely with both the hardware and software r&d teams to bring the latest innovations in security to abode customers. Scott is responsible for bringing new products and enhancements to the abode product line, and ensuring the security and scalability of abode systems.

He currently resides in Silicon Valley, CA , thriving for more knowledge and learning that the best form of growth is by living outside his comfort zone, while attempting to make the improbable happen.
